

If music and children make your life richer, now you can enjoy them to the fullest. Join the Kindermusik community of teachers and families who all share a passion for transforming the lives of children through music. We're hiring new Kindermusik teachers because we're growing!

Kindermusik With Kim is interested in hiring an energetic, part-time teacher to teach one or two weekday evenings and one or two Saturday morning classes.

This is a terrific part-time job for someone with a great singing voice, experience with teaching or performing music or early childhood development experience. A Kindermusik certification program must be completed before employment can begin. Join an already established and successful program at Kindermusik With Kim!
